Executive Summary

Purpose

Describe the purpose of the project. What is the problem being solved? Why is the project important? Who might benefit from the project?

PRISM is a shopping website for shopaholics, general shoppers, and fashion admirers. The purpose of the project is to solve luxurious fashion problem. We know the brands like Gucci, D&G, Bloomingdale, Ralph Lauren, Louis Vuitton, etc. are luxurious brands that are expensive as heck. We, at PRISM, offer the same luxurious fashion wear at reasonable amount. We, as a Fashion is approachable to everyone in every season. PRISM is a project that will bring fashion to everyone.

Synopsis

Briefly describe the project in big-picture terms; like an elevator pitch. What will it do? Who is it for? Why does it matter? How will you solve the problem?

We see PRISM as an alternative brand Fashion wear that will soon be one of the top fashion brands in the world that will still be approachable to everyone. These high-quality fashion wears are expensive because of its well renowned brands. We will provide the same high-quality fashion wear but will be ten times cheaper than their price. PRISM is for anyone from a newly born child to any age. It will make you look glamorous for any event anytime. This e-commerce website is a solution to that problem.

Background

Problem

State the problem again and provide more details about it, such as historical context, relevance, importance to your group, importance to a target audience, etc.

The purpose of the project is to solve luxurious fashion problem. We know the brands like Gucci, D&G, Bloomingdale, Ralph Lauren, Louis Vuitton, etc. are luxurious brands that are expensive and have been since long time. We, PRISM, comes in the play to help support fashion. This project is for everyone from a newly born child to any age.

Project Plan
