Executive Summary

Purpose

PRISM is a shopping website for shopaholics, general shoppers, and fashion admirers. The purpose of the project is to solve luxurious fashion problem. We know the brands like Gucci, D&G, Bloomingdale, Ralph Lauren, Louis Vuitton, etc. are luxurious brands that are expensive as heck. We, at PRISM, offer the same luxurious fashion wear at reasonable amount. We, as a Fashion is approachable to everyone in every season. PRISM is a project that will bring fashion to everyone.

Synopsis

We see PRISM as an alternative brand Fashion wear that will soon be one of the top fashion brands in the world that will still be approachable to everyone. These high-quality fashion wears are expensive because of its well renowned brands. We will provide the same high-quality fashion wear but will be ten times cheaper than their price. PRISM is for anyone from a newly born child to any age. It will make you look glamourous for any event anytime. This e-commerce website is a solution to that problem.

Background

Problem

The purpose of the project is to solve luxurious fashion problem. We know the brands like Gucci, D&G, Bloomingdale, Ralph Lauren, Louis Vuitton, etc. are luxurious brands that are expensive and have been since long time. We, PRISM, comes in the play to help support fashion. This project is for everyone from a newly born child to any age.

Project Plan

Milestone 3 Details

Trey:

Product Details:
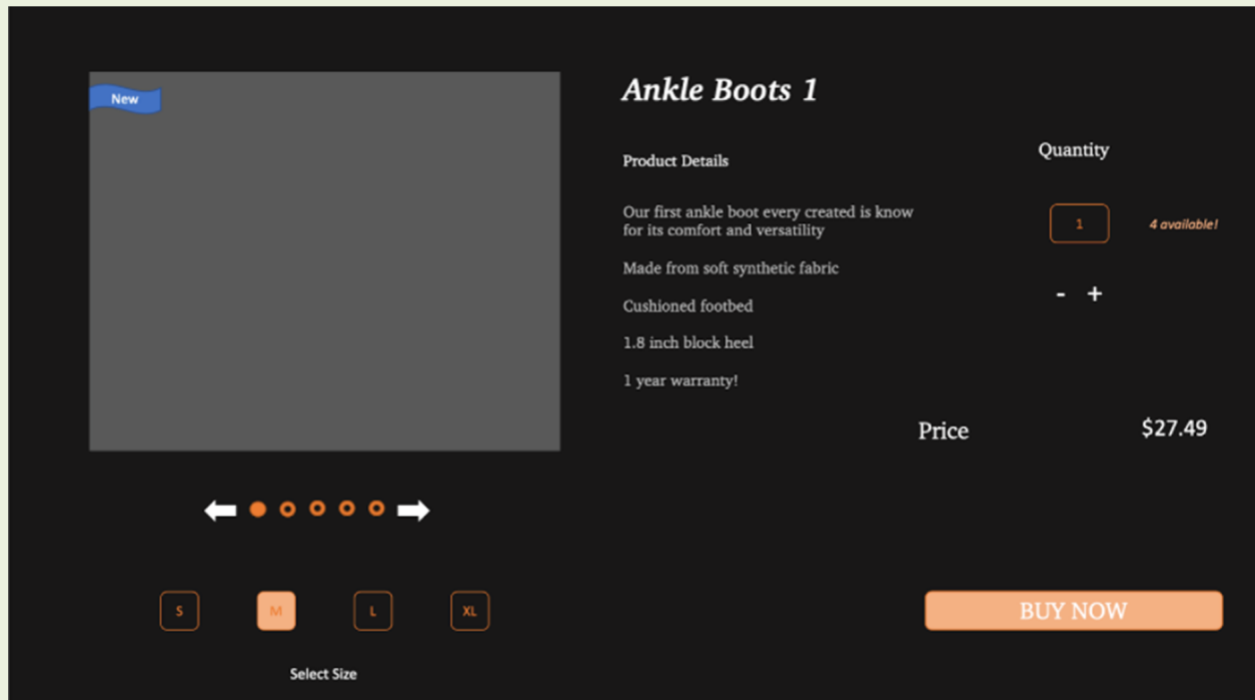

This slide is the user product details slide. The user will be able to cycle through photos of the product, then be able to select the size and quantity they would like to purchase based on availability. This slide gives more detailed information on the product as well as the price and the option to "buy now" or "add to cart"

Milestone 3 Details

Admin Product Details:

This slide is the admin product details page. This is the same page as the user details except the admin only has access to this version as they will be able to edit the price, the size options/availability, product details, product name, and lastly be able to add or remove photos of the product or even add other info via the edit button such as mark a product as sold out or new to the site.

Your Cart (2)

		Price
Ankle Boots 1	Style #: 345523425 / Size: small / Qty: 3 / Color: Brown	$82.47
Ankle Boots 2	Style #: 345523425 / Size: small / Qty: 1 / Color: Brown	$45.99

ORDER SUMMARY

Enter Promo Code

SUBTOTAL	$ 128.46
Shipping & Handling	$0.00
Tax	$0.00
TOTAL	**$128.46**

CHECKOUT

This is a very simple cart page showing each item a customer adds to their cart, the price of that product, and a few important details of each item. This page also shows the order summary directly before the customer makes a purchase allowing them to enter a promo code if they choose, also can view the subtotal before taxes and shipping/handling. Finally, the summary gives the final total of the order and the option to checkout the items.

Milestone 3 Details

Your Orders page:

This is the "my orders" page which will allow a customer to view an order they had just completed. They will be able to click on the track order button which will give them updates on where their package is. They will also have the option to cancel their order (within a certain amount of time maybe?). This page also gives the status of the shipment as well as an overview of each item purchased including a less detailed product description of each item. Lastly, this page shows the date the order was placed, the date it is expected to arrive, and the last 4 numbers of the card used to make the purchase.

Work Plan:

Milestone 6				
				Deadline
Front-End Complete				2-Nov
Progress Update				17-Nov
